

Seaford COMMUNITY OF HOPE

Meaningful community-based solutions, proven to create better futures for your children and families.

Creating better futures for children and families isn't possible unless we understand the unique needs, strengths, and conditions of the communities they live in.

If a community is healthy — safe, supportive and teeming with opportunities — then it has what children and families need to thrive. For vulnerable communities, meeting needs before challenges turn into crises, makes all the difference.

Seaford Community of Hope is a place-based program that engages local communities to meet needs with wraparound services and supports proven to help reduce poverty, improve lives, and keep families together.

A shared responsibility to build hope, into a true child and family well-being system.

Using the Casey Family Programs model, Seaford Community of Hope brings all of the diverse and relevant voices of a community together - government, business, nonprofit and faith-based, philanthropic, and community members - to establish their own priorities and create their own solutions.

Our Family Resource Centers, led by culturally respectful, trauma-informed staff, serve as vibrant hubs of collaboration, transforming hope into sustainable changes that increase protective factors for families and communities, strengthen parent and child resiliency, and ensure all children and families have what they need to thrive.

Program Supports Include:

- Safe, Supportive Drop-in Centers
- Multi-lingual, Caring Staff
